Best Practices Undertaken During Covid-19 Pandemic

(Effective and useful steps are taken by the teachers using different approaches, techniques and mediums for online classes to ensure that students will be able to get the atmosphere like school during this pandemic situation.)

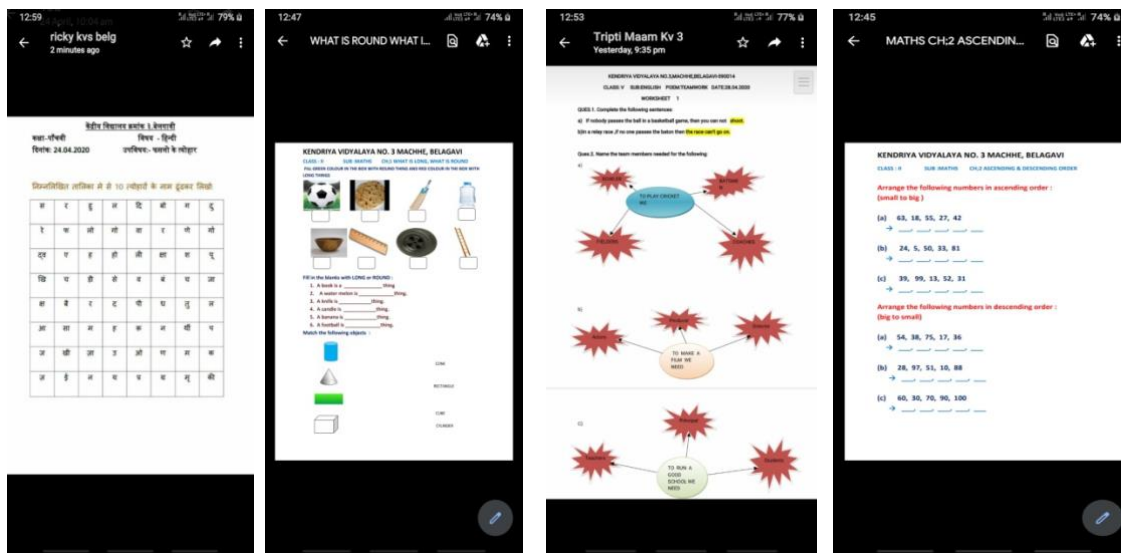

We have made following efforts to uplift students learning:

1. Taking classes through Whatsapp groups, Google meet. Making personal videos and YouTube videos with explanation to subject topics. Students can learn at any time through these recorded videos. A few self recorded, YouTube videos and Google meet links are as follows.

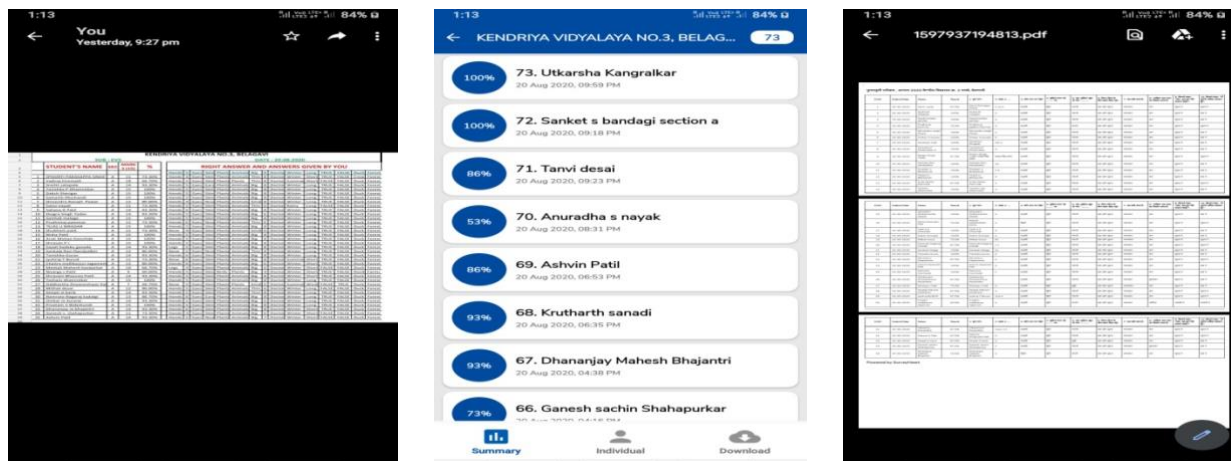

- <https://meet.google.com/get-fcaz-tnz>
- <http://meet.google.com/yhy-fjtw-mdj>
- <https://meet.google.com/tww-ueeh-frf>
- <https://meet.google.com/shi-yjqb-spy>
- <https://meet.google.com/who-ykag-jih>

2. Online teaching create an interactive session. Preparing and sharing worksheets based on the topics and conducting assessment through Google forms, documents. Some are as follows :

3. Online teaching brings innovative change in students' life as well as teaching style. Conducting online tests to encouraging the habit of giving exams and for revision. A few links and some tests' results are as follow :

<https://surveyheart.com/form/5f3cf01e2dfe06110d16c758>

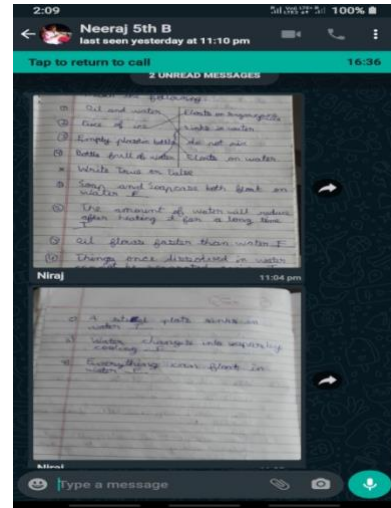

4. Coordinating with parents via whatsapp or voice call to join class groups and taking feedback.

5. Making PPTs and using E-learning apps like BYJUS, NCERT, Periwinckle, Swayamprabha, YouTube, sharing E-content as suggested in CMP Bengaluru BlogSpot and other learning resources.

6. Feedback and suggestions from teachers and students time to time to select best teaching practices. Also getting very good responses by students, they also doing so many experiments and learning works under the instruction of their subject teachers.

Some extra practices which we are doing along the teaching ;

1. Encouraging students to do co-operate with family members in their daily family household works.
2. Motivation to raise awareness towards safety guidelines of COVID-19, like keeping sanitization, wearing masks while going outside, washing of hands time to time.
3. Individual counseling to some needy students via call or messages.

This all happens by taking all necessary support from respected Principal sir, students and staff.

Thanks & Regard
Primary wing.
